

Electronic vs USPS Task Force – Survey

The Electronic VS USPS Task Force wants YOUR opinion! We are looking at various ways of delivering the AI-A-Notes to our groups and members and want to know what you think. AI-A-Notes is the newsletter for AFG of Ohio.

There is no right or wrong answer in this survey. The Task Force would like to know how you want to receive AI-A-Notes in the future. **NO CHANGES ARE PLANNED RIGHT NOW. THE TASK FORCE IS CHARGED WITH DOING ADDITIONAL THINKING ABOUT THIS TOPIC.**

There are four choices for receiving the AI-A-Notes. Please mark your preference(s) 1, 2, 3, or 4 with 1 being your favorite.

|-------|-------------------------|---|
| _____ | US Postal Service | AI-A-Notes would be delivered by the U.S. Postal Service (this is how it's being done now). It's fairly secure and address changes are returned to us. It's also the most expensive way to deliver the AI-A-Notes. |
| _____ | WEBSITE | AI-A-Notes would be posted on the Area Website, http://www.ohioal-anon.org/ . Changes would be made, specifically all names and addresses would be removed. |
| _____ | E-MAIL | AFG of Ohio would compile a list of email addresses of the Current Mailing Addresses (CMA) for the groups and email the AI-A-Notes to that person. The CMA prints the AI-A-Notes and takes it to their meeting. AFG of Ohio would not be able to update email addresses like we do USPS addresses, so if a CMA's information is not current with AFG of Ohio, then the group's copy of AI-A-Notes would not be delivered. |
| _____ | PASSWORD PROTECTED AREA | This would be a "secure" section of our website. AI-Anon members would request a password to be sent to them in order to gain access. This would require the retention of some personal information by the web service that hosts the Ohio Area's website. |

Your anonymity is protected with this survey.
